

Dyslexia Certificate Program

Level 1

Summer 2018

BACKGROUND & PHILOSOPHY

It is estimated that 10 – 15 percent of the general population has a reading based learning disability. Of those individuals, approximately 80% has dyslexia. Yet, many people are misinformed or uninformed about dyslexia, including many school teachers, school staff and parents. Children and adults with dyslexia are often not identified and/or do not receive the appropriate remediation they need to learn to read, write and spell despite the fact they have the intellectual capacity to learn. What is dyslexia? The International Dyslexia Association (IDA) and the National Institute of Child Health and Human Development (NICHD) adopted the following definition of dyslexia:

Dyslexia is characterized by difficulties with accurate and / or fluent word recognition and by poor spelling and decoding abilities. These difficulties typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction. Secondary consequences may include problems in reading comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge.

In an effort to address the needs of individuals with dyslexia, educators and parents need to have a deep understanding of dyslexia, how to effectively assist those individuals with dyslexia to be successful in school and adult life, and be trained in the appropriate remediation for dyslexia.

Many parents and educators who have contacted us have been searching for training but they rarely have access to appropriate training in their area. Therefore, we have developed an online format to provide a quality training program so that those desiring training can access training and subsequently help those individuals with dyslexia they educate or interact with in their daily lives.

Benefits of taking this course online as compared to on-site courses:

- Participants have access to the course content 24 hours a day/7 days a week for the duration of the course. Participants fit the course work into their schedule. Coursework is instructor-led so feedback and answers to questions will always be provided on a timely basis.
- Participants can review archived PowerPoint presentations, videos and other course material to be viewed as often as desired
- Participants have the opportunity to reflect on what they are learning before posting questions and reflections on discussion boards
- Participants are not limited to on-site in class time only to ask questions and interact with instructors and program participants

Upon completion of the Dyslexia Certificate Program Level 1 course participants will have a better understanding of dyslexia, how to assist individuals with dyslexia and their families in school settings, and be able to implement interventions that are based on the Orton-Gillingham approach.

GOALS

DTI developed the online certification program to:

- Provide accurate information about dyslexia and effective remediation practices to those who educate and interact with individuals with dyslexia and related reading disabilities
- Provide training to education professionals and parents in effective remediation so more individuals with dyslexia have access to appropriate remediation
- Provide an online format for training so more individuals have access to learn what dyslexia is and how to effectively remediate it

TARGET AUDIENCE

A wide range of individuals may benefit from taking this certification program. The curriculum has been developed to be appropriate both for professionals, paraprofessionals and parents. The target audience includes:

- K-12 Professionals involved in the education of children with reading disabilities including school administrators, teachers, classroom aids and advocates

- Homeschooling parents and homeschooling service providers
- University and community college staff involved in departments supporting students with reading disabilities
- Parents, caretakers, grandparents and extended family of children with reading disabilities
- Educational Therapists, professional and volunteer tutors who work with individuals with reading disabilities
- College students enrolled in teacher training programs
- Community agencies providing services to individuals with reading disabilities (ie: literacy programs for children and adults)

CERTIFICATE PROGRAM REQUIREMENTS

The certificate program consists of two components: online coursework, midterm, final and a practicum. *It will take approximately 110 hours (approximately 20 hours per class, plus three two hour webinars) of class work plus and additional approximately 45-60 hours for the practicum to complete the certificate program.*
